Be Tied Up on June 1.

Agreement Expires Then and the Men To Start at the Bedforu Fountain at Will Make More Demands.

The motermen and conductors of the Atlantic Avenue Railroad system in Brooklyn are not satisfied with the arrangements made by which they returned to work after the lockout of last Sunday Monday, and it is expected that the troutfe will crop out again ever the annual agreement to be signed on June 1. It is understood that one of the demands made by the men will be for \$2.25 a. because in view of the compromise made Monday they are required to wear more expensive uniforms than the employees of other lines, and they declare that they should therefore receive more

A committee, headed by District Master Workman Joseph F. McDonald, ca'ed at President Norton's office yesthat is to take the place of one that ex-pires on June 1, but Mr. Norton could not be seen. It is probable that the same committee will call again this afternoon, and that afterwards the demands will

and that afterwards the demands will be made.

Mr. Norton's answer will then be conveyed to the organizations of the various lines, and there are rumors already that unless the Company makes concessions a strike will follow.

It is said that the employees of the Bergen street line are particularly dissatisfied, because, believing they got the wo.st of it in the compromise arranged by the E-ecutive Committee, some of the men are in ugly humor, and it was reported that District Master Workman McDonald was attacked and so badly beaten that it was necessary for him to go the hospital. This was denied, however, and the explanation given that rumors of a fight probably resulted from the very lively meeting of the Bergen street men at which the compromise was considered.

considered.

A majority of the Bergen street men were in favor of rejecting the agreement, but the Fifth avenue men had voted in favor of it, and the aggregate showed a majority in favor of accept-

ance.

There were many hot words passed, and Mr. McDonald admitted to-day that police broke into the room to queli the disturbance, but were told they were not needed. There was no violence, however, so Mr. McDonald alleges, He was accompanied by Matthew Sharon, also a member of the Executive Committee.

also a member of the Executive Committee.

The Fifth avenue men held a meeting Friday night, and it is said that the opinions expressed were almost unanimous in demanding \$2.25 a day. They claimed that the trouble of the first week showed that \$5 per cent. of the men are organized, a fact which, it is said, the Company did not before realize. That the Company will resist all demands for an increase of salary is evident from the fact that all the non-union men brought on from other cities at the time of the lock-out are now on the "extra" list. There are over one hundred of them, and in the event of trouble they would probably consent to take the places of the regular men. Instead of making concessions, it is intimated that the Company will take the reverse course.
